## How long should a full load of decorative top sheets be dried in the dryer?

Answer:

- 8 to 12 minutes max. They should still be very slightly damp when removed from the dryer

## What causes the decorative top sheet to curl and wrinkle on the edges?

Answer:

- Over drying. Over Drying is harmful to the fibers in the sheets and can cause permanent damage that can't be reversed

## Why should laundry rooms be painted light blue?

Answer:

- It is scientifically proven that stains in white linen and terry show up better to the naked eye when the walls are painted light blue
- Sherwin Williams paint color CLOUDLESS is a great choice to paint the walls

## What are 2 great ways to press pillow cases to make them wrinkle free?

Answer:

- Purchase an inexpensive table press (about \$250) and gently press the pillow cases
- Stack the pillow cases overnight flat on a board and place a board with several phone books on top to apply pressure and press the pillow cases
