

One Starfish at a Time

A girl was walking along the beach, tossing starfish into the ocean. A man saw her throwing one starfish after another into the ocean, and he asked, "What are you doing?" She told him there is a low tide, and all the starfish will die if they don't get back into the ocean. The man looked at her and said, "There are thousands of starfish. You can't possibly make any difference." The girl bent down to pick up another starfish, she threw it into the ocean, and she looked at the man and said...

"I made a difference to that one!"

Every day we get to meet people from all over the world.
Who will you make a difference for today?
